**AWKLEY GREEN CULVERT REPLACEMENT SCHEME  
ROAD CLOSURE**

Dear Resident,

We have a scheme to replace the existing stone arch culvert on Moor Lane, Awkley. The existing masonry arch has been found to be weak and requires a replacement.

Unfortunately it is necessary to close a short section of Moor Lane to enable our contractor to demolish and replace the culvert. It is anticipated that the road will be closed for 15 weeks. However we shall endeavour to keep the duration of the road closure to the minimum.

We are planning to commence works in September 2008. Two weeks prior to the road closure, advance warning signs shall be erected next to the bridge in both directions to notify road users of the closure.

I have enclosed a copy of the diversion route plan for the road closure. The red line signifies the section of road to be closed over the culvert and the green line signifies the diversion route.

Please do not hesitate to contact me if you have any queries or comments on 01454 863764.

Yours faithfully,

Dale Mynett  
Assistant Engineer  
Highways and Transportation
